## 50 Year Warranty

Cretex Specialty Products proudly offers a 50 year warranty on the original installation of your Cretex Internal Manhole Chimney Seals and Cretex External Manhole Chimney Seals.

Cretex Chimney Seals, when properly installed, are designed to prevent leakage of water through the sealed portion of the manhole frame-chimney area throughout their 50 year design life.

Cretex Specialty Products will replace any Cretex Internal or External Manhole Chimney Seal found to be defective upon inspection by a qualified Cretex Representative. This warranty covers the replacement of defective seals and stainless steel locking expansion or compression bands. This warranty does not cover installation labor, site preparation, or freight.

Cretex Manhole Chimney Seals meet or exceed the applicable material requirements of ASTM C-923, ASTM F-593 and ASTM F-594 (Type 304 or 316). Periodic material testing is performed to confirm compliance has been met.
