Dear E. Dickson:

The Department has completed its review of the above referenced product that was submitted for approval to the Product Evaluation Committee. We have evaluated your product sample and explanation of our design concern. Based on that information, your product has been approved for use on Tennessee roadways and will be added to the appropriate Qualified Products List, pending certification, in writing, that your product exceeds the required loading.

If you have any questions you can call 615-350-4167 or e-mail james.maxwell@state.tn.us.

Sincerely,

James M. Maxwell
Chairman – Product Evaluation Committee
