Subject: Notification of Product Status

**NP14-6718 PRO-RING**  
By: Cretex Speicalty Products

Dear Mr. Haessig:

The North Carolina Department of Transportation has reviewed the forenamed product and assigned a status of “**Approved for Provisional Use**” to product **NP14-6718 PRO-RING** on the Department’s Approved Product List ([APL](#)). This status means the product may be approved for use based on site specific and/or project specific conditions being met. The specific provision for your product is that should be used for maintenance operations or temporary applications and is not approved for new construction.

An approved status does not infer the product will be used in NCDOT projects or that the products will be actively promoted by the Department. It will be your responsibility to market your product. If the product is changed for any reason, or is not performing effectively, the product status will be changed accordingly.

Additionally, you must recertify your product on an annual basis by the 31st of January. If a recertification is not received by January 31st, the product will be removed from the Department’s Approved Product List ([APL](#)). Recertification Notices with detailed requirements will be sent out in December of each year. If at any time, contact information has changed, you must inform this office.

Please do not hesitate to inform us of any other products that may benefit the Department. If you have questions or comments, I may be reached at 919-707-4807 or via e-mail at: [nroskam@ncdot.gov](mailto:nroskam@ncdot.gov) or [productevaluation@ncdot.gov](mailto:productevaluation@ncdot.gov).

Sincerely,

A handwritten signature in blue ink that reads 'Natalie Roskam'.

Natalie Roskam, PE  
Value Management Program Engineer
