Subject: Notification of Product Status
NP14-6718 PRO-RING
By: Cretex Specialty Products

Dear Mr. Haessig:

The North Carolina Department of Transportation evaluated the forenamed product and assigned a status of "**Approved**" to **NP14-6718 PRO-RING** (Manhole Related Items) on the Department's Approved Products List ([APL](#)).

An approved status does not infer the product will be used in NCDOT projects or that the products will be actively promoted by the Department. It will be your responsibility to market your product. If the product is changed for any reason, or is not performing effectively, the product status will be changed accordingly.

Additionally, you must recertify your product on an annual basis by the 31st of January. If a recertification is not received by January 31st, the product will be removed from the Department's Approved Products List ([APL](#)). Recertification Notices with detailed requirements will be sent out in December of each year. If at any time, contact information has changed, you must inform this office.

Please do not hesitate to inform us of any other products that may benefit the Department. If you have questions or comments, I may be reached at 919-707-6680 or via e-mail at: productevaluation@ncdot.gov.

Sincerely,
